

HCL AION: Master Your AI Lifecycle

HCL AION

The comprehensive AI platform for real-world machine learning challenges

Build, govern, and deploy mission-critical AI applications with a platform that offers the speed of AutoML and the power of customizable, production-grade deployment—all within a single, secure lifecycle.

HCL AION provides you with a unified platform to apply machine learning to your real business challenges – without the friction of switching tools or the delays caused by back-and-forth handoffs between teams. Whether a business user or a technical expert, anyone on your team can rapidly build and validate models through an intuitive visual interface.

From quick prototypes to full-scale production, HCL AION supports you every step of the way, keeping your AI journey continuous, collaborative, and results-driven.

Unlock the Power of AI Across Your Enterprise:

- **Democratize AI:** Enable non-technical users with intuitive low-code/no-code interfaces.
- **Accelerate development:** Streamline workflows from data preparation to model building.
- **Ensure reliability:** Build and monitor robust, production-ready models.
- **Promote collaboration:** Enable teams to work in a unified, compliant environment
- **Build trust:** Emphasize fairness, transparency, and robustness with Responsible AI.

Enterprise-Ready AI for Scalable Success

Designed to meet the rigorous requirements of modern organizations:

- **Scalability:** Handle large-scale, high-volume workloads effortlessly.
- **Robustness:** Dependable for mission-critical ML applications.
- **Security:** Enterprise-grade protection for data and models.
- **Flexible Deployment:** Choose between cloud, on-premise, or hybrid setups.

Why Choose HCL AION?

HCL AION brings together powerful capabilities for every role on your AI team, from business experts and data scientists to MLOps and IT leadership, enabling them to manage every stage of the AI lifecycle within one integrated platform.

- One unified platform for the full AI lifecycle
- Faster time-to-value from raw data to production
- Broaden participation in AI across your teams
- Built-in MLOps for seamless operations
- Trustworthy, transparent, and responsible AI
- Enterprise-grade scalability and security

"From quick prototypes to full-scale production, including deployment into a secure production environment, HCL AION supports you every step of the way, keeping your AI journey continuous, collaborative, and results-driven."

HCL AION Engines

HCL AION is powered by a dynamic orchestration engine—the invisible intelligence that automates and connects every stage of the AI lifecycle.

Built to simplify how teams work, it manages everything from data prep to deployment in the background, while enabling seamless transitions from no-code flows to fully version-controlled Python pipelines. You get complete data and model lineage, regardless of how you choose to build.

Take the next step towards streamlined, scalable, and responsible AI with HCL AION.

About HCLSoftware

HCLSoftware is a global leader in software innovation, dedicated to powering the Digital+ Economy. We develop, market, sell, and support transformative solutions across business and industry, intelligent operations, total experience, data and analytics, and cybersecurity. Built on a rich heritage of pioneering spirit and unwavering commitment to customer success, we deliver best-in-class software products that empower organizations to achieve their goals. Our core values of integrity, inclusion, value creation, people centricity, and social responsibility guide everything we do. HCLSoftware serves more than 20,000 organizations, including a majority of the Fortune 100 and almost half of the Fortune 500. **Learn more about how HCLSoftware can help you achieve your goals at <https://www.hcl-software.com/>.**
