

Fuel aftermarket-led growth in every function

Drive memorable post-sales and aftermarket experiences with HCLSoftware on Microsoft Azure

Legacy tools, disconnected strategies and fragmented systems prevent manufacturers and dealers from exceptionally serving their end consumers. Declutter the mess with pre-configured industry best practices powered by HCL Aftermarket Cloud.

Fueling aftermarket-led growth with pre-configured digital solutions

HCL Aftermarket Cloud is the most cost-effective and comprehensive SaaS application suite for manufacturers and dealers to excel in subscriptions, parts and service fulfillment. Its plug-and-play apps are infused with industry best practices to drive memorable consumer experiences.

Capitalize on growth opportunities

All-in-one dealer management

Deliver ROI with DMS right from day one with feature-rich capabilities.

Simplified commerce operations

Reach a broader audience to seize your full market potential.

Specialty apps for every need

Browse an extensive collection of plug-and-play aftermarket specialty apps.

Connecting value chain with DMS, E-Commerce and specialty apps

With an e-commerce-ready Dealer Management System, you can gain control over the parts shopping experience, parts availability across the value chain and inherent pilferages in the aftermarket within 20 weeks.

Plug in the right aftermarket specialty app to grow your specialty

With a single foundation delivered by HCL Aftermarket Cloud, you can:

Shift from internal efficiency KPIs to customer centricity

Deliver consistent customer experiences wherever you meet them

Consolidate operations by integrating existing technologies with aftermarket-focused solutions

De-risk transformation and maximize your investments
