Top Reasons You Should Choose HCL Domino Restart Plus

Multi-Experience

Write once, deploy everywhere

Design amazing apps for any audience across any device without limits. Unlock value from both platforms by extending your Domino apps with Volt MX, our cutting-edge multi-experience platform

Innovation

Make everyone a developer

Create a "citizen" developer community to build straightforward no-code applications with ready-made components.

Nomad Web & Mobile

Use your Domino apps when and where you want even offline

Nomad Web eliminates the need for the Notes desktop client. Nomad Mobile enables you to leverage key capabilities such as biometrics, GPS, camera, and storage on your mobile device.

Modernization

Create better looking apps

Restyle existing Domino apps with a more modern look and UI. Apply new themes, update colors - all in minutes, at a fraction of the cost of rewriting them.

Top Reasons You Should Choose HCL Domino Restart Plus

Upgrading is a Snap

Never disrupt your business with an upgrade

Easily upgrade software regardless of your release version. Upgrading Domino has never been faster or easier, and your applications are backwards compatible.

Harmonious Experience

Cloud native integrates seamlessly within your enterprise

Domino and Volt MX support Active Directory integration. Deploy them on the cloud of your choice on any Kubernetes environment – public, private, or hybrid – in minutes

Compliance

OS support and compliance

Reduce risk of OS non-compliance and external threats by renewing support and upgrading Domino. Domino v9/v10 end of support is June 2024
